

# Island Street Bridge Replacement

State Project I.D. 6498-00-06/71  
City of Kaukauna, Island Street  
(Power Canal Tail Race)  
Local Street  
Outagamie County

## Public Involvement

August 2020

## Purpose of Public Involvement Event

The purpose of the public involvement event is to provide you with information about this project and to gather your thoughts and comments for use in the design process. A PowerPoint presentation and exhibit materials are posted on the City of Kaukauna's website (<https://cityofkaukauna.com/>). Feel free to ask questions or share your comments with City of Kaukauna or MSA Professional Services staff listed below.

## Project information

The project length is approximately 0.06 miles. The project corridor is classified as a Minor Arterial. Proposed improvements to the corridor include replacement of the existing bridge and roadway approaches including new pavement, curb and gutter, sidewalk, storm sewer, and water main. The project will closely match the existing horizontal and vertical alignments. Right of way acquisitions and temporary limited easements are anticipated for bridge installation and grading. Construction is currently scheduled for the summer of 2022.

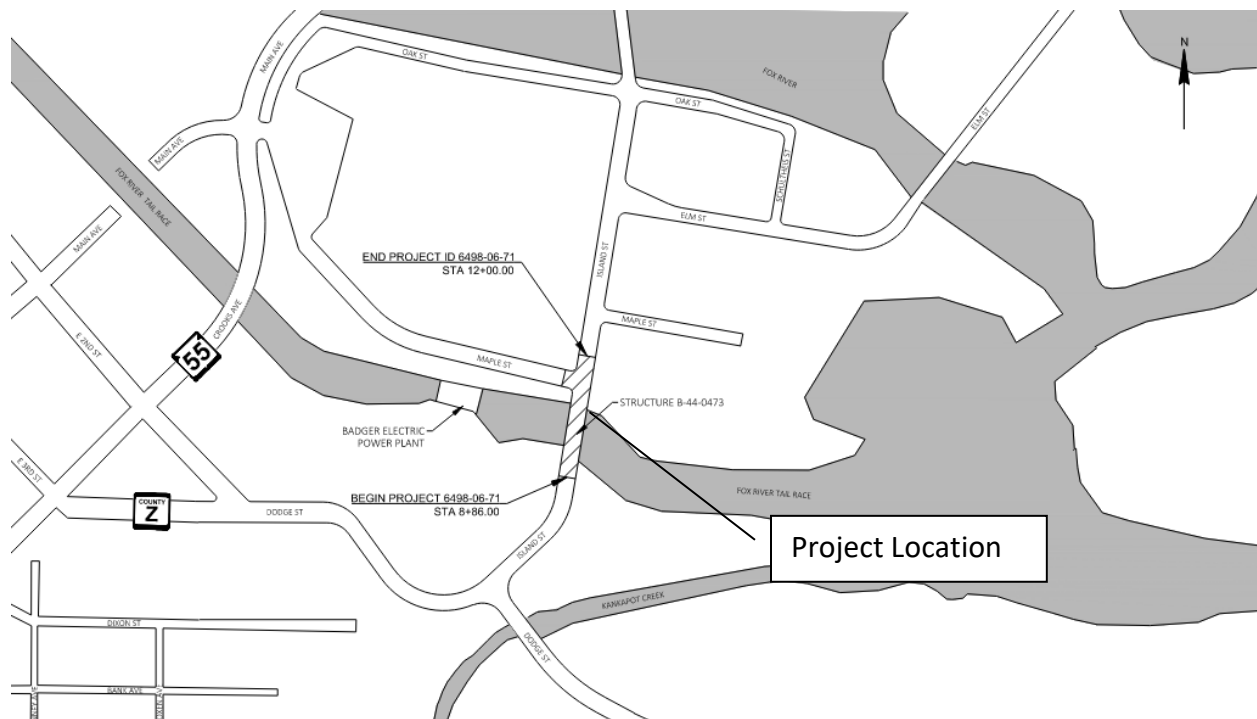

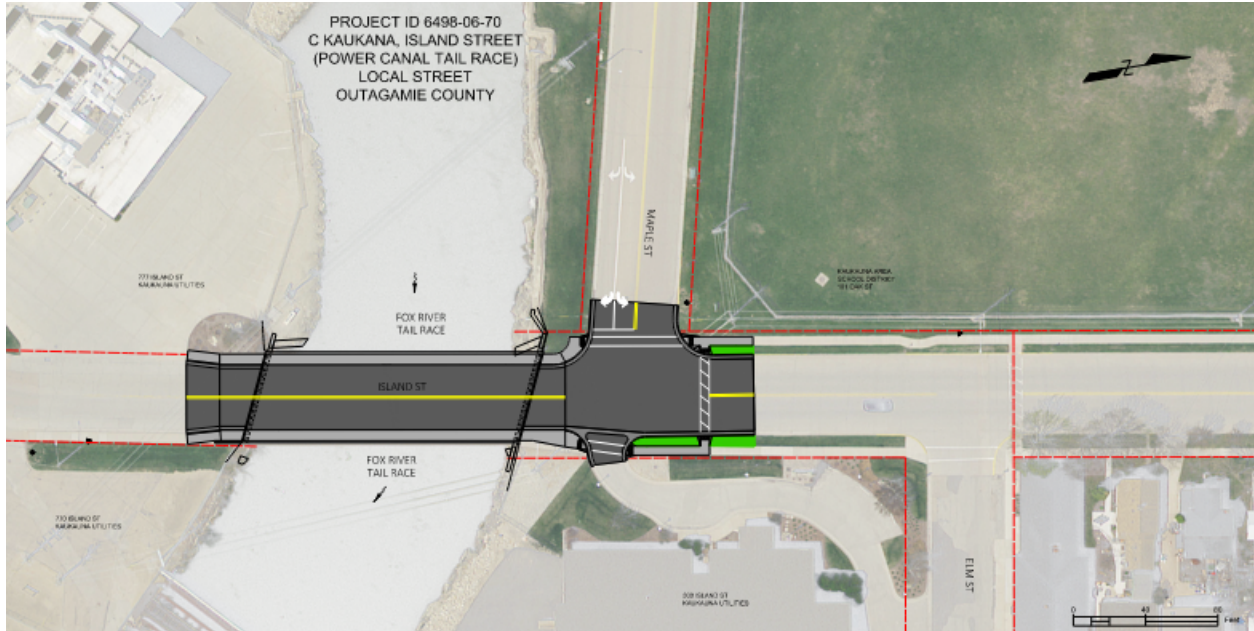

Figure 1: Project Overview Map

**Figure 2: Project Overview**

The Riverview Middle School and Badger Hydroelectric Historic District are within the project limits and are considered Section 4(f) properties. Section 4(f) resources are publically protected parks, recreation areas, wildlife, or waterfowl areas and any significant historic or archaeological sites. In the case of this project, we have determined that we are not impacting the Riverview Middle School property and the proposed bridge project is not adversely impacting the characteristics of the historic district.

**Figure 3: Section 4(f) Resources**

The project team is seeking your input on any concerns that individuals may have on how the project is impacting these resources. Persons with a concern for or knowledge about historic

buildings and structures and archaeological sites are encouraged to provide comments to the local units of government or the consultant.

## Schedule

The project team is currently in the preliminary design phase of preparing the construction plans. There will be another public involvement event later in the fall of 2020 or winter of 2021.

The project schedule is as follows:

Preliminary Plans:	June 2020
Public Involvement Meeting #1:	August 2020
Environmental Document:	Fall 2020
Design Study Report/Right of Way Plat:	Fall 2020/Winter 2020
Public Involvement Meeting #2:	Fall 2020/Winter 2020
Final Plans (PS&E):	August 1, 2021
Bid Letting	January 11, 2022
Construction:	Summer 2022

## Public comments

We encourage you to talk to our project representatives, and ask them any questions you may have. Attached to this handout is a sheet for your written comments and concerns about the project. Please mail or email any written comments before August 28, 2020.
