YOUTH SPORTS

GYMNASTICS LEVELS 1-4

***These levels are designed in order for coaches to best support your gymnasts!
Placing gymnasts in the appropriate skill level is vital in helping them grow and learn fundamental skills!
There is no age restriction within any of the levels, but this program is designed
to support gymnasts ages 4-13 (pre-k-8th grade).**

Level 1 (recommended experience: 0-1 years)

This level is ideal for beginners! We build foundational skills, learn about gymnastics as a sport, and get to know our bodies. This level also has an emphasis on learning listening and following directions in the gym. Foundational skills include, but are not limited to: Forward rolls, walking in releve, coupe, and posse, and basic jumps and leaps. Two sections of this level are available

Level 2 (recommended experience: 2-3 years)

This level builds on the foundations made in level one. Gymnasts are getting to know their strengths and how to use those to support more challenging areas of practice in order to become well-rounded gymnasts. This level also introduces the idea of taking positive risks and building gymnasts confidence. Skills in this level include, but are not limited to: backbends, handstands, pivot turns, scales, and leaps. Two sections of this level are available

Level 3 (recommended experience: 4-5 years)

This level is designed for more intermediate level gymnasts. Gymnasts continue to build their confidence and begin to work more independently on skills. This level is also an introduction to a more team-oriented environment. Gymnasts are growing an attention to detail in their skills that will aid their progression as they advance in difficulty level. Skills in this level include, but are not limited to: cartwheels, round offs, backbend kickovers, jumps on beam, handstands off vault, and forward/backward passes. Two sections of this level are available

Level 4 (recommended experience: 6+ years)

This is our most advanced level. It is a team oriented-level, designed to challenge gymnasts and prepare them to participate on a high school team or at a competitive level. Gymnasts at this level are able to work independently and understand where it is appropriate to take risks and where to ask for help. Skills in this level include, but are not limited to: aerials, front tucks, front handsprings, cartwheels on beam, and handstands over vault. One section of this level is available
